DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, generally found in claims 1-72, 76-98 and 102-125, drawn to an apparatus comprising **a waveguide having an entrance edge and top and bottom surfaces**, for image acquisition of topological features of the surface of skin.

Group II, generally found in claims 73-75 and 99-101, drawn to a method of acquiring an image of the topology of the surface of skin with an apparatus that **does not have a waveguide having an entrance edge and top and bottom surfaces**.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The method of Group II **does not need** a waveguide having an entrance edge and top and bottom surfaces for acquiring an image of the topology of the surface of skin and the method can be performed on an apparatus that has an entirely different structure than the apparatus claimed in Group I.

3. A telephone call was made to the applicant's agent on 06/02/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2886

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
